No 28

JOE BOSWORTH IS SPEAKER OF HOUSE

Legislature Meets, Hears Message and O. K.'s Suffrage Amendment

Frankfort, Ky., Jan. 6.—Immediately after the House of Representatives organized by the election of officers and heard Governor Morrow's message to the General Assembly the federal suffrage amendment was ratified under a suspension of the rules.

The announcement of the roll-call was greeted by loud applause from suffragists who packed the House galleries and occupied standing room in the House of Representatives.

On the floor of the House were Mrs. Edwin P. Morrow, Mrs. Thruston Ballard, Mr. and Mrs. Robert McDowell, of Louisville; Mrs. William O'Connell Bradley, Mrs. Portwood, of Somerset, sister of Governor Morrow, Mrs. Desha Breckenridge and others interested in the ratification of the Susan B. Anthony amendment.

Representative Joe Bosworth, of Middlesboro, who was the caucus nominee of the Republican party for speaker of the House was elected by acclamation on motion of Representative A. H. Waggoner, of Scott county.

Thompson's Name Proposed.

The name of Representative J. H. Thompson, of Bourbon County, was proposed by the Democrats for speaker of the House. On the roll call Representative Bosworth received fifty-five votes and Representative Thompson forty-four votes, but before the vote had been announced by the clerk, Representative Waggoner proposed that the members make the election of Bosworth by acclamation, saying that malice toward none, good will to all and love for Joe Bosworth caused him to make the motion.

Clerk Eli Berry, who was presiding over the House until the organization was effected, appointed Representatives Waggoner, J. H. Thompson and Joseph Lazarus, the floor leader for the majority party, to escort Speaker Bosworth to the chair.

After being introduced by Representative Thompson, Speaker Bosworth thanked the members for the honor they had conferred upon him. In but one way, he said, could he repay the members and that was by co-operating with them to help the commonwealth of Kentucky.

"We were sent here," he said, "for the purpose of enacting into legislation laws that will mean something to the state of Kentucky and we must all do our duty. And after serving sixty days here we can go back home knowing we have done our full duty to the state."

Flowers Laid on Vacant Desk.

At the close of his remarks he was presented with a bouquet of roses sent to him by State Auditor J. J. Craig. Leaving the speaker's desk he walked down to the desk of former Representative Reuben Hutchcraft, of Paris and placed the flowers on it, saying "Six years ago when I was here one who was here then is not here now. He has made life's sacrifice and I am going to hand over to that vacant chair the flowers sent me."

Lilburn Phelps, Republican nominee for clerk, received 55 votes and Eli Berry, Democratic nominee, 43 votes. Before the vote was announced the election of Phelps was made by acclamation and Phelps was sworn into office by Judge Flem Sampson, of the Court of Appeals.

All of the other officers for the House, A. B. Leach, assistant clerk; Miss Zilpha Roberts, enrolling clerk; John Cook, sergeant-at-arms; G. L. Perryman, doorkeeper; Edgar McCandless, janitor; James A. Ray and William Roberts, cloakroom keepers, and Robert Humble, Charles Murray Neel, John Cain and Marvin Wash, pages, were elected by acclamation.

Sustaining the contention of Representative Duffy that the House of Representatives had nothing to do with the peace treaty which was in the hands of the United States Senate alone, Speaker Bosworth ruled out of order the resolution of Representative Griffin Kelly calling upon the United States Senate to ratify the peace treaty.

Ministers of the city were invited to open the sessions of the House with prayer and to be present at any and all of the sessions. An effort was

made to have the minister-members of the House open the sessions with prayer but this motion was promptly rejected by the House.

The House will operate under the rules of the 1918 session until new rules are adopted.

A vote of thanks was extended to Eli Berry, former clerk of the House, for presiding over the meeting of the House until officers had been elected.

Ninety-eight members answered the roll call and were sworn into office by Judge Rollin Hurt, of the Court of Appeals.

The invocation at the opening of the House was made by the Rev. Roger T. Nooe, of the First Christian Church.

Both the Senate and House adjourned over until Monday, the House adjourning out of respect to the memory of Captain Hutchcraft.

TWO-PLY WEDDING STAGED AT SIMMONS

I experienced quite a pleasant surprise on the evening of the 2nd, inst., while sitting by my fireside casually perusing my daily paper someone gently rapped on the door and when the invitation to "come in" was extended, quite a number of my friends and neighbors filed into my room and before I had fairly recovered from the surprise, two young gentlemen conveying their "best", advanced with some familiar looking legal documents and gave them to me.

A glance at the papers told the story. It was Mr. Myrtle Hurt, to Miss Moore and Mr. Archie Feety, to Miss Jennie Mae Hurt, all residents of Simmons, Ky. In the best language I could command I pronounced at once the two couples husbands and wives, respectively. Mr. Hurt is an ex-soldier boy and now in the employ of the Broadway Coal Co. His bride is a daughter of "Uncle" Finis Moore. Mr. Feety is also working for the Broadway Coal Co. and his bride is a daughter of Mr. Riley Hurt, also of this place.

The writer wishes for these young couples and anticipates, all the connubial bliss consistent with a voyage on the more or less tempestuous sea of matrimony.

G. T. TINSLEY.

GONE TO FLORIDA.

Mr. Steve O. Rowan and son, Hugh, of Wray, Colo., who have been visiting relatives at Hefflin and other points in Ohio County for two weeks, in company with Mr. and Mrs. A. V. Rowan, of Hefflin, left Wednesday morning for Winterhaven, Florida, where they expect to remain until the first of April.

SURVEY OF CONDITIONS RESPECTING TEACHERS

The National Educational Association has recently sent out blanks to every county Superintendent within the State, requesting specific information as respects teachers and teaching conditions. From the sixty-one reporting the following is a summary:

1. Total number of teaching positions included in reports, 5,065.
2. Total number of teachers who dropped out during the past year, 1,153, per cent 23.
3. Total number of new teachers entering, September, 1919, 1,004, per cent 20.
4. Total shortage of teachers reported, 468, per cent 9.
5. Total number of teachers below standard, 963, per cent 19.
6. Total shortage, including teachers below standard, 1,431, per cent 28.
7. Has it been necessary to accept lower qualifications in order to supply teachers? Yes 55, No 6.
8. Have teachers' salaries increased as salaries have in other vocations? Yes 4, No 56.
9. Have teachers' salaries increased in proportion to cost of living? No 59.
10. Is the number of teachers below 21 years of age increasing? Yes 52, No 9.
11. Are promising young men and women attracted to teaching as in the past? Yes 4, No 57.

We have prepared a similar summary for every state from the signed reports furnished by the superintendents. It is very noticeable that in those states where salaries are highest conditions are best, and where salaries are lowest the conditions are most serious.

HUGH S. MAGILL,
Field Secretary.

AMERICANS NOT TO AID AS PLEBISCITES

Allies To Tell Germany Forces Will Be Reduced One-Fourth

Paris, Jan. 6.—There is every indication now in Supreme Council circles that the peace protocol will be signed by Germany and ratifications of the Treaty of Versailles exchanged on the coming Saturday, January 10, the date tentatively set by the Council yesterday.

The Council of the League of Nations, it is understood, will be called to meet about a week later. An application from the German representatives here for a reduction in the number of troops to be sent to the areas in which plebiscites are to be taken under the peace treaty has been received by the Supreme Council. Germany will have to bear the expense of maintaining these troops and her representatives complain that the cost will be excessive. So heavy an expenditure is not necessary, it is asserted.

The Council, it is learned, will reply that inasmuch as the United States has not supplied its quota of troops, which was to constitute a quarter of the whole, the number of men sent will comprise only three-quarters of the total originally fixed.

The Inter-allied Military Commission at Budapest was authorized by the Supreme Council to intervene in favor of some of the more moderate Communists who have been condemned to death by the authorities in the Hungarian capital. Authority to intervene to this end had been requested by the commission.

There are still a considerable number of the less extreme Communists awaiting execution in Budapest, the commission reported.

At this morning's session of the Council the questions last remaining to be decided to complete the Hungarian peace treaty were taken under consideration. The Hungarian delegates are expected to arrive this evening. They probably will receive the full text of the treaty Monday or Tuesday next. How much time, if any, will be given the delegation for consideration of the peace terms is not known as yet.

The precise date for the conference of the Powers on the Turkish question still remains uncertain and there is even doubt as yet as to just what form this conference will take and exactly who will participate. Ambassador Wallace has thus far received no instructions regarding participation.

ALL MOVEMENT OF WHISKY IS ENDED

Under instructions received by local railroad officials from the United States Railroad Administration to "accept no shipments of whisky that cannot be delivered to destination by January 16," all movement of whisky ceased today. It had been expected that a definite date would be set by the Railroad Administration and most railroads here assumed that January 5 would be designated as the latest date on which shipments could be received for export.

Instructions, however, left the matter in the discretion of the local officials, who immediately decided that a period of ten days was necessary to insure any shipment reaching its destination, if intended for export, and allow a reasonable time for loading on ships by January 16.

About 400 barrels were shipped out yesterday as the last part of the pool of 30,000 barrels formed two weeks ago to be exported through Philadelphia. Practically 30,000,000 gallons remain in bond in Kentucky, ready to be taken over by the Government when constitutional prohibition becomes effective. The estimated value is from \$30,000,000 to \$150,000,000, taking into account the possible value of "bootleg whisky."

50 PER CENT ADVANCE IN SHOE PRICES PREDICTED

Cincinnati, Ohio, Jan. 6.—Today before the annual convention of the National Shoe Travelers' Association, J. B. Byrne of Rochester, N. Y., the president of the association, predicted a 50 per cent advance in the prices of shoes next summer.

SPLENDID MEETING ON AT M. E. CHURCH

Dr. Waters Delivering Excellent Sermons, Song Services Good

The series of meetings being conducted at the Methodist Church are attracting widespread attention in this community. The preaching is being done by Evangelist Bascom Waters, of Clinton, Tenn. His style, method of delivery and rare aptitude for driving home his points appears to be an art peculiarly his own. His system—for it is a system, and after all, it is the only thing that counts in any calling—is new to the people of this locality. His discourses are not only highly entertaining, but if eloquent, sound and sensible preaching of religious duties and standards ever did good, then this community ought to be immeasurably benefitted.

The song services are under the direction of Joe H. Hampton, Singing Evangelist, of Knoxville, Tenn., while Miss Rhea Hansom, of Nashville, Tenn., presides at the Piano. This feature of the services is most excellent, above the usual standard and lends aid in making the whole more attractive and effective.

Two services are held each day, at 10 a. m. and 7 p. m., the house usually being well filled at the night service.

BENNETT—ALLEN

Mr. and Mrs. Edwin P. Bennett announce the engagement and approaching marriage of their daughter, Willye, to Eugene Lowe Allen, the wedding to take place at the home of the bride's parents, January the 18th.

BEADS ODDLY STRUNG

(By I. D. Claire.)

The ghost of Bryan is haunting the dream of the Democratic presidential candidate makers.

If this junk inclines to make the reader sleepy it is because it was writ at 1 o'clock in the morning.

I was sorry to see the sugar equalization board bill pass congress. It did look like 21 cents a pound was high enough.

It is little wonder that the ex-Kaiser is reported to be extremely nervous. Just think how long he was drunk on the lust for power.

I am coming over to take a fishing trip with the "Angler" party in the spring. I won't be afraid to be out on the river with that crowd now.

Every time the courts take a whack at poor old John Barleycorn they give him another black eye. Serves him right. He used to make folk's eyes red.

Gems in the human, as in the mineral, world are not numerous, but the close observer will discover one occasionally, even in a community of strangers.

Did you ever pause to think seriously of how you had grown away from some of your once dearest friends? The reflection accents the cruel finger touches of time, and reminds one of how soon death will terminate it all.

A man worth millions said to me once that the chief benefit of large wealth was that it removed its proprietor from the indignities of the multitude. Now, Tins, don't go and work yourself to death to get a million when you can achieve the relief referred to in a position as an editorial writer on a daily newspaper.

Governor Morrow, like Governor Black, believes in preparedness, if we are to judge by the number of colonels appointed, and may I be pardoned the doggerel:

We do not want to fight
But by jingo if we do,
We've got the money and the men,
And got the Colonels, too.

Nation-wide prohibition is the rottenest piece of farce comedy ever played on a national stage. Conceived in the minds of visionary idealists and translated into law by a congress

of political cowards and hypocrites, it will stand as a monument marking the country's spasm of hysteria. Although the law provides that its violation is a felony the same cowardice that inspired congress to pass it restrains officials from enforcing it, and the fine farce goes merrily on.

I was just now reading a story of an "Ole Swimm'n' Hole," and was resolving to take a plunge in a branch near Sulphur Springs, when the bob whiffed again, when I happened to recall there wasn't any hole there anymore. Isn't life full of little disappointments?

Speaking of the old swimming hole reminds me of some other things that ain't what they used to be. For instance, I haven't seen a seed tick in a quarter of a century. And the tumble bugs too, seem to have perished from the earth. Then there were the sap-suckers. What boy did not delight to lean on his hoe handle and watch them flit in and out of their holes, high up in the old, dead trees, bringing worms and bugs to their young? Yes, and that recalls the pin hook and the minnow bucket, and sitting by the roots of a tree on a rocky branch and watching the swarm of minnows in the clear, cool water. O, who would not pass up the purple and a crown to be just a plain country boy again?

OFF FOR ALABAMA.

Mr. V. C. Elgin, with his household effects, goods and chattles, left here Tuesday morning for Montgomery, Ala., near which point Mr. Elgin has planned to make his future home, he having purchased a farm about seven miles from that city.

Mrs. Elgin and children left in the afternoon of the same day for Adairville, where they will visit Rev. and Mrs. Virgil Elgin a few days before going to their Southern home.

GOOD TAX COLLECTION.

In this issue will be found the Sheriff's advertisement or notice of land sales for taxes for the past year, the smallest during the past fifteen years, perhaps.

It looks as though the taxpayers have come to realize this is an obligation that must be met and that the better system is to pay before additional cost accrues. Then too, Sheriff Bratcher has kept the matter constantly before the people by newspaper advertising, posters and by direct personal notices.

If the Sheriff has succeeded in collecting from the poll taxpayers and those who pay only upon a small assessment of personal property as well as he has from landowners the closest collection for years will be registered for 1919.

MRS BETTY SANDERS DEAD

Mrs. Betty Sanders, widow of Dr. Isaac Sanders, died at the home of her son, Mr. H. S. Sanders, in Covington, Monday night at 8:15. The remains were taken to Owensboro, where funeral services were conducted at the Presbyterian Church and burial took place in the afternoon of Wednesday, at Elmwood.

Mrs. Sanders was widely known in Ohio county, by the older class, Dr. Sanders having resided at Centertown, Beda and Hartford, where he practiced his profession for several years.

BOARD OF EDUCATION IN SESSION MONDAY

The Ohio county Board of Education composed of R. A. Owen, O. W. Duff, H. L. Carter, Robert Goff, Otis Stevens, Nat Lindley and Superintendent E. S. Howard, met here Monday.

The most important act of the board was the allowance of the sum of \$5.00 per month to all teachers for the year ending June 30th., 1920. This means considerable to the teachers of the County, as it will increase their salary at least 10 per cent. The Board also heard and approved the report of the Finance or Auditing Committee, which report may be found on another page hereof.

COFFEE—Direct from roaster to consumer, we will roast, grind and deliver by prepaid parcel post three pounds of good, strong Coffee, for One Dollar.

HOPKINSVILLE COFFEE CO.,

Hopkinsville, Ky.

HIGH COURT KILLS HOPE FOR 2.75 BEER

Wets To Attack Prohibition Amendment, See Failure

New York, Jan. 5.—Another fight for 2.75 per cent beer will be made before the United States Supreme Court, according to Emory R. Buckner, who was associated with Elihu Root, as counsel for Jacob Rupert, against whom the United States Supreme Court decided today in holding the sale of 2.75 per cent beer illegal.

Mr. Root's firm is counsel for Christian Reigenshan, a New Jersey brewing corporation which is seeking to restrain enforcement of the eighteenth amendment in New Jersey. The bill of complaint in the case says that 2.75 beer is not intoxicating and that "such fact has been definitely determined and demonstrated by experience."

"The question whether 2.75 beer can be sold after the eighteenth amendment is effective must be decided in the future," said Mr. Buckner.

"Today's decision effects its status only under war-time prohibition.

Today's decision relates only to the war powers of Congress. When the amendment is effective, questions will be raised not only as to the validity of its passage, but also whether or not nonintoxicating beer can be sold under it."

Mr. Buckner saw a ray of hope in the fact that the court was divided on today's decision, but was not encouraged by that portion of the majority decision saying that Congress had power to fix a standard of alcoholic content for the purpose of effective enforcement. He did not care to predict whether this would be a controlling precedent when the court came to pass on the validity of 2.75 per cent under constitutional prohibition.

William H. Hurst, attorney for the New York State Brewers' Association, asserted that the decision "relates only to that part of the Volstead bill which deals with war-time prohibition and has no necessary bearing on the eighteenth amendment."

"No case is before the Supreme Court upon which a decision was to have been handed down today that involves either the validity of the amendment itself or that raises any question of the power of Congress under the amendment," said Mr. Hurst. Power of Congress Unquestionable

By a margin of one vote the Washington, Jan. 5.—By a margin of one vote the Supreme Court today upheld the right of Congress to define intoxicating liquors, insofar as applied to war-time prohibition.

In a four-to-five opinion rendered by Associate Justice Brandeis, the court sustained the constitutionality of provisions in the Volstead prohibition enforcement act prohibiting the manufacture and sale of beverages containing one-half of one per cent or more of alcohol. Associate Justices Day, Van Devanter, McReynolds and Clark dissented.

Little Hope for "Wets."

Validity of the federal prohibition constitutional amendment and of portions of the Volstead act effecting its enforcement was not involved in the proceedings, but the opinion was regarded as so sweeping as to leave little hopes among "wet" adherents.

Wayne B. Wheeler, general counsel for the Anti-Saloon League of America, hailed it as a "sweeping victory" and in a statement tonight said the only prohibition question left open by the court now is whether the eighteenth amendment is of the nature that can be considered as a federal amendment and whether it was properly adopted.

In rendering the opinion, the court sustained Federal Court decrees dismissing injunction proceedings to enjoin federal authorities from preventing Jacob Ruppert, a New York brewer from manufacturing beer containing in excess of one-half of one per cent but which he alleged was nonintoxicating.

BILL WOULD MAKE MAMMOTH CAVE PARK

Washington, Jan. 6.—Representative Thomas, Democrat, Kentucky, today announced a bill to establish Mammoth Cave, Ky., as a national park.

HOPES FOR PEACE PACT ON THE WANE

Senators Seem Further Apart Each Wait For Other To Move

Washington, Jan. 2.—After many conferences today, between Senator Lodge and Republican and Democratic senators who favor ratification of the treaty, both sides announced that they were farther from agreement than they have been at any time since the agitation for a compromise was begun.

Senator Lodge saw Senators McNary, Lenroot, Capper and Curtis, Republicans, and also talked with Senator Swanson, Democrat, who had been in conference with Senators Hitchcock and King.

None of the senators presented to Senator Lodge any definite proposal for a compromise or for modification of the reservations to which a majority of the Senate stands committed. Further than that, Senators Hitchcock and Swanson stated emphatically that no scheme of compromise will be presented by the Democrats and that any suggestion for a compromise must be made from the Republican side.

The inexorable facts which served to dampen the spirits of those working toward a compromise are set forth in the following statements by senators after the day's conferences were at an end:

Senator Lodge: "No concrete plan of compromise was tendered me by any of the senators I talked with. They hadn't any."

Senator McNary: "I am waiting to see if the administration Democrats can work out any proposition upon which we can agree."

Senator Capper: "The sentiment of the country is for the Lodge reservations. If any substantial changes are made in them there will at least be thirty-five Republicans who will vote against ratifications. The reservations of Article X and on the equality of voting to which the Democrats particularly object, can not be modified if the treaty is to be ratified."

Senator Swanson: "The Democrats have nothing to propose. They are waiting to see what the Republicans will do."

Senator Hitchcock dashed the hopes of the compromisers with this significant statement:

"There will have to be very substantial modifications in the Lodge reservations before the Democrats can accept them. The initiative must be taken by the 'mild reservationists' on the Republican side. The Democrats do not intend to offer any compromise."

Senator Hitchcock was asked whether he believed the treaty would be ratified before January 16, the date on which the prohibition amendment becomes effective. He replied that he did not think action by that time would be possible, but that he believed the treaty would be ratified before the end of the month.

No Great Act of Heroism Required
If some great act of heroism was necessary to protect a child from croup, no mother would hesitate to protect her offspring, but when it is only necessary to keep at hand a bottle of Chamberlain's Cough Remedy and give it as soon as the first indication of croup appears, there are many who neglect it. Chamberlain's Cough Remedy is within the reach of all and is prompt and effectual. m

RECEIVES A POSTCARD MAILED 13 YEARS AGO

Ardmore, Okla., Jan. 3.—A postcard, travel-stained, crumpled and worn, was received a few days ago at Marietta by Mr. and Mrs. Marshall Norville, just 13 years after it had been dropped in a postoffice at a North Texas town. The card was addressed to the Norvilles at Oklahoma City, thirteen miles north of the Texas line, and traveled at the rate of a mile a year after crossing the Red River.

No data are available to chronicle the wanderings of the postal card, which bore a message of congratulation to the Norvilles on their marriage.

Children Cry FOR FLETCHER'S CASTOR OIL

WOULD PRESERVE SULTAN TURKEY'S INDEPENDENCE

Mohammed VI, sultan of Turkey, is looking to the United States to see that Turkey is given a square deal in the final peace settlement. It is unfair that other nationalities should profit by President Wilson's pledges and not we he recently said. East-

ern peace can be maintained only if Turkey is left independent, for the Islamic world will be satisfied only with freedom, he declared. He regards Turkey as a misjudged nation; "those who investigated impartially the Turkish question have discovered that despite our bad government our people have many merits and deserve better treatment than it is reported they are to receive, he said. The sultan declares that it is his "unwavering determination" to reconstruct the country so that it will be the center of the East's peace and progress. He commended the action of America on the prohibition question and asserted that one of his chief aims was to secure the emancipation of Turkish women.

Lame back may come from overwork, cold settled in the muscles of the back, or from disease. In the two former cases the right remedy is Ballard's Snow Liniment. It should be rubbed in thoroughly over the affected part, the relief will be prompt and satisfactory. Price 25c, 50c and \$1.00 per bottle. Sold by Ohio County Drug Co. m

EMPEROR CARRIES BIG MAIL

Sailing in December the Emperor began her first voyage as a merchant ship, since she sailed under the German flag in July, 1914. She carried over 10,000 sacks of mail. She is now a British ship operating on the Cunard line from New York to Plymouth, Cherbourg and Southampton. Passengers for the first trip numbered over 2700. Coal for the voyage was so much in excess of the allotment that clearance was at first refused and only granted on the promise of the British ministry to replace the excess amount.

Surgeons agree that in cases of cuts, burns, bruises and wounds the first treatment is most important. When an efficient antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, Borozone is the ideal antiseptic and healing agent. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by Ohio County Drug Company. m

"PUSSYFOOT" JOHNSON HAS LONDON GUESSING

By Harold E. Bechtel.
London, Jan. 2.—"Pussyfoot" Johnson is still going strong.

Britishers can't stop talking about this American Anti-Saloon Leaguer who sacrificed an eye in fighting for prohibition in England.

After his "hazing" by "wet" students, in which his eye was so badly injured it had to be taken out, the Evening News of London, a Northcliffe paper, started a fund for "the white man who is a true sport," and raised \$1,200 before Johnson said, "Thanks, but I can't accept the money."

"There are so many millions of eyes in the world, that one eye, more or less, doesn't much matter, he explained.

After Johnson declined the News' fund, a rival paper, the Star, said: "Bravo, Pussyfoot! Mr. Johnson is still a sport. He has refused to accept the testimonial subscribed at the instance of one of the two papers which so carefully engineered the opposition to his campaign, and which are morally responsible for the loss of his eye."

Now "Pussyfoot" has got everybody wondering whether there isn't "something in this prohibition business after all, if a man will give up an eye for it as cheerfully as that—his OWN eye."

And then comes a new statement by "Pussyfoot" in which he reminds everybody:

"Each year in America the liquor traffic put out 60,000 eyes!"

The Britisher would like to scream at him: "I say! Don't you realize you have lost an eye! You ONLY HAVE ONE LEFT!"

He's either crazy or this absurd prohibition cause must have some merits to enlist such devotion as that—of that the average John Bull is convinced.

"And he's certainly not crazy. Look at the way he capitalizes the accident for advertising. (Oh yes, John Bull sees that.) Maybe this prohibition has merits." And Johnson chuckles.

Pleurisy pains are located just below the short ribs. Lumbago affects the same region but toward the back. Ballard's Snow Liniment is the remedy in either case. If rubbed in thoroughly it eases pain, relaxes the muscles and the patient can move about freely and comfortably. Price 25c, 50c and \$1.00 per bottle. Sold by Ohio County Drug Company. m

"There goes Mr. Sharp. I wonder how he made all his money."

"Ah! that must be why he always looks so worried!"—The Passing Show.

No one shall take them from me—

I love my pipe and good old Velvet—

My comforters in adversity, my wise counselors when problems vex.

Companions of my loneliness and sharers of my happy hours.

Their friendliness has made me feel more kindly toward my fellow men.

They have made this old world a better place to live in.

I love my pipe and good old Velvet;
no one shall take them from me.

Write to Velvet Joe, 4241 Folsom Avenue, St. Louis, Mo., for his 1920 Almanac. He will send it FREE.

DOG HERO—LIFE SAVER WELL PROVIDED FOR IN OLD AGE

Surrounded with every comfort possible and now sixteen years old, "Rufus," known as the "hero of the desert," who, with his partner, Lou Wescott Beck, made the sun-scorched, trackless wastes of the great Southwest safer for travelers, in passing his old age in a dog sanitarium at Pasadena.

The end of his days on earth is not far off. He is spent and feeble after his many long and weary journeys over the burning and blinding sands with his pioneer master. He will no doubt soon fall asleep. Even now he day-dreams probably of that long, long desert trail, or the glad time he will have when he can rejoin his companion of bygone days.

Lou Wescott Beck and Rufus were intrepid pioneers in a life-saving project which received scanty support and tardy recognition. Together they fared forth on their mission of mercy, the former carrying signboards and cans of paint, the latter laden with saddle bags of restoratives and poison antidotes. While Beck set

up the guide-posts or painted the water signs Rufus detoured widely and succored many a prospector who but for him would have died miserably from the delirium of thirst or the venom of snake bites.

The work of these two great benefactors is over. Beck died in July, 1917, and since then the United States Government has appropriated \$100,000 to carry out the project that he and his devoted dog started.

Rufus will be provided for by Dr. T. H. Agnew, a veterinarian and personal friend of Beck. His years of hardship, of life-saving service on the desolate wastes under heavy saddlebags, plodding along continuously in his lather boots, are not without their reward. His many friends who used to see him on the streets and pat him with approval as he started out on his desert trips will not forget him in his old age. A good friend of Rufus, writing in the Pasadena Evening Post, closes her tribute of praise to this noble, self-sacrificing dog with these words:

"I shall always think of him with the background of the desert, and all about him the limitless space. I

shall think of the dawn with its wonderful orange and flame, and desert blues, when the morning stars are sinking, the moon has sunk out of sight, and Arcturus is blazing, and through it all I shall hear that musical baying of Rufus, as if he called to the distant mountains to send forth their streams of living water, and I shall remember the intrepid dog soul that never faltered, the life savor, Rufus of the desert."—Our Dumb Animals.

To The Dyspeptic.

Would you not like to feel that your stomach troubles are over, that you can eat any kind of food that you crave? Consider then the fact that Chamberlain's Tablets have cured others—why not you? There are many who have been restored to health by taking these tablets and can now eat any kind of food that they crave.

Children Cry FOR FLETCHER'S CASTOR OIL

A DYE PROPAGANDA.

Designed to make the people of this country believe that dyes produced here are inferior to German dyes is being fostered by the old dyestuff trade, still influenced by the German idea. American chemists declare. American dyes, they say, are in no wise different from those made in Germany but it has been impossible in the short time available for American producers to make the variety of colors formerly offered by the Germans. They have necessarily concentrated on staples but they can produce the specialties just as well when they get round to that.

The liver loses its activity at times and needs help. Herbine is an effective liver stimulant. It also purifies the bowels, strengthens digestion and restores strength, vigor and cheerful spirits. Price 60c. Sold by Ohio County Drug Co. m

Socialism is a dream of getting for nothing something somebody else worked for.—Toledo Blade.

SENATORS DESERT WILSON ON TREATY

Democrats Revolt At Continued Dictation Of President

Washington, Jan. 3.—A revolt of Democratic senators against the dictation of President Wilson in the treaty fight assumed formidable proportions today.

The revolt will take definite shape tomorrow when these senators, ten or twelve in number, will meet at the home of Senator Hoke Smith, of Georgia, to talk over plans for putting the treaty through with reservations which can command sixty-four votes in the Senate.

The fact that this effort at compromise may involve the swallowing of the Lodge program in its entirety, will not deter Senator Smith and those associated with him in their purpose to reach some understanding whereby the treaty can be ratified despite the President's announced opposition to any kind of reservations.

Smith Leads Seceders.

Senator Smith assumed the nominal leadership of the seceders by issuing the invitation for the meeting. He announced that about a dozen Democratic senators had accepted his invitation. He was unwilling to give any names, but it is understood that among those who are likely to attend the independent conference are the following:

Kendrick, Wyoming; Smith, South Carolina; Smith, Arizona; Henderson, Nevada; Chamberlain, Oregon; Trammell, Florida; Gerry, Rhode Island; Wolcott, Delaware; Fletcher, Florida; Dial, South Carolina; Kirby, Arkansas; Myers, Montana; Owen, Oklahoma; Pomeroy, Ohio.

Georgians for Reservations.

Senator Smith was prompted to take this action in opposition to the President and to the leadership of the Senators Hitchcock, Underwood and others who have been presenting the President's views, because of a seemingly accurate estimate of the sentiment of the people of his state during his recent visit there. According to Senator Smith, the people of Georgia where he has just made a speaking tour regard the treaty and the league proposition in this manner:

For reservations equally as strong as those on the Lodge program, 60 per cent; against the league in its entirety, 20 per cent; for the treaty if it is, 20 per cent.

Senator Smith is satisfied that this same preponderance of sentiment against ratification in the manner demanded by the President, that is, without any reservations, would hold throughout the country. In some sections he declared the percentage against the whole treaty and league would be much greater.

DOGS IN RED CROSS RELIEF.

In its task of relieving suffering throughout the world, the Red Cross has had frequent occasion to rely on the sagacity and loyalty of dogs. In the mountainous regions of Bohemia, dogs are used to transport goods, being harnessed to small carts like the chens de trait of Belgium. In carrying the food and clothing and medicines into those almost inaccessible mountain villages where the suffering was so intense, the Red Cross workers made frequent use of these carts.

In America, too, dogs are used. Last winter, when the epidemic of influenza was at its height, word came to the Red Cross Chapter at Anchorage, Alaska, that an entire village of Indians was down with the flu. But the village was fifty miles from a railroad. To reach it, the party of seven Red Cross workers who went to the rescue were obliged, after leaving the railroad, to cover these fifty miles by dog team. When they arrived, the situation was very serious. Of a hundred Indians, fifty were sick and nineteen were dead. The relief party set to work, established a hospital, fed and cared for the sufferers. Only five more lives were lost—thanks to the dogs.

Recently, Captain Howard Armstrong, of Buffalo, was in charge of a trainload of Red Cross supplies bound to relieve the serious condition of the hospitals in Budapest. One night, while in the yards at Zurich, in Switzerland, Captain Armstrong was patrolling the Red Cross train. A Swiss police dog was performing the same duty for the government. In the darkness it was

impossible to distinguish the American uniform and the guard in charge of the dog, seeing a shadowy figure near the train, ordered his dog into action. Captain Armstrong was attacked, and after a sharp scuffle, during which he was bitten several times, managed to get his raincoat over the dog's head and shouted to the guard to call him off. This was an instance where the Red Cross did not profit by the dog's loyalty, but it was not the animal's fault. It seldom is. He simply obeyed orders; the mistake was his master's. W. R. B. (Our Dumb Animals.)

Don't You Forget It.

Bear in mind that Chamberlain's Tablets not only move the bowels but improve the appetite and strengthen the digestion. They contain no poison or other digestive ferment but strengthen the stomach and enable it to perform its functions naturally. m

"Congress has passed the bill which Senator Edge of New Jersey, introduced which will enable bankers, exporters, manufacturers and investors of the United States to co-operate effectively in financing Old World reconstruction and promoting American foreign trade for the benefit of all concerned. New resources are to be found under the terms of the Edge bill, and new forms and methods of organization for the definite purpose of extending liberal credits to European countries are authorized. Its provisions will have to be carefully and thoroughly set forth, for its success will depend on the degree of sympathetic interest it arouses in business and investing circles. Mortgages will be taken under the bill to secure the credits extended, and on these foreign mortgage securities may be issued and sold in the United States. It will be possible for hundreds of thousands of persons to assist Europe without neglecting this nation's vital interests. Thrift and economy will be stimulated by the measure, once its objects, safeguards and machinery are fully understood." —Chicago Daily News.

INCREASED COTTON ESTIMATE

In its December estimate of the cotton crop of the United States the government raises the amount 500,000,000 above its previous estimate. The new estimate puts the total cotton yield at 5,500,000,000 pounds. At 30 cents a pound, the price to which cotton fell for June delivery, the value of the cotton alone is \$1,650,000,000.

"There is one League of Nations to which the Government and the people of the United States will subscribe without reservations, amendments or hesitation. It was outlined by Premier Clemenceau in the chamber of deputies, when, replying to a query regarding his recent conferences with Premier Lloyd George, he said: 'I will tell you two principal decisions we have taken. Not only will we not make peace, but we will not compromise with the government of the soviets. We have decided that we will be the allies of all peoples attacked by bolshevism.'—Washington Post.

Pale Children Need Gude's Pepto-Mangan

Unnatural for Children to be Pale
and Thin—Paleness is Sign
Of Thin, Watery Blood

Pepto-Mangan Makes Red Blood

Prepared in Liquid and Tablet Form
—Both Possess Identical
Medicinal Qualities

It is necessary for boys and girls to laugh, romp, play and enjoy themselves, for it is at that stage of life that the foundation is laid for future health.

Prompt attention should be given to the child who seldom laughs, whose physical condition prevents playing like other children, whose appetite is poor, and who tires easily.

If the lassitude is due to poor blood, which is often the case, a simple, safe, and pleasant remedy is within easy reach. Gude's Pepto-Mangan is just the tonic for pale, thin children. Gude's Pepto-Mangan contains the very ingredients that increase and enrich the blood, enabling it to supply the entire body with the sorely needed vigor, strength and vitality that make happy, romping children.

For the convenience of the public Pepto-Mangan is prepared in tablet as well as liquid form. Both forms possess exactly the same medicinal properties.

When you ask the druggist for Pepto-Mangan, look for the name "Gude's" on the package. If it is not there it is not Pepto-Mangan. (Advertisement.)

ONCE CONGRESSMAN, PROUD OF PATCHES

Author Of Anti-Profitteering Law Wears Old Clothes

By George B. Waters.

Washington, Jan. 3.—The author of the only federal anti-profitteering law has a patch on his trousers and he says he will wear those pants till the patch wears out. He is wearing an overcoat for the third year, and his shoes have half soles on them.

The man is Ashbury F. Lever, former congressman from South Carolina, author of the Lever anti-profitteering law, and now a member of the Farm Loan Board.

When the author of the people's only weapon against profiteers advocates economy and practices it, he should know what he is talking about. Lever was told that the cost of living had gone up 2 per cent since his law, with the penalty attached, Oct. 22, became effective.

"The best way for the people to lower the cost of living is to stop extravagance," said Lever. "If enough people will refrain from buying \$15 shoes and \$60 suits, I will guarantee that the cost of these things will come down. Now is a good time for many people to save some money for themselves and at the same time help bring prices down for all. But are they doing it?"

"I just returned from North Carolina, where I made a speech. A man told me how one of his tenants raised a huge cotton crop, the tenant getting \$6,000, the first real money he ever had. I said, 'that will enable him to go where land is cheap and buy a farm.' He replied, 'he has already bought an automobile and drives it sixty miles every night.' Such extravagance increases the prices of everything. So long as the spendthrifts are aiding and abetting the profiteers, it seems futile to try to lower the cost of living. I am not buying anything I do not have to have. And I am more able financially to buy than the average person is. If everybody will decide to wait to do their buying until the prices come down, they won't have to wait long."

Heartburn, indigestion or distress of the stomach is instantly relieved by Herbine. It forces the badly digested food out of the body and restores tone in the stomach and bowels. Price 60c. Sold by Ohio County Drug Company.

"It should be kept in mind as Congress proceeds with army reorganization that universal military training is entirely different from universal military service. Every citizen should have a knowledge of arms, and to acquire this calls for some form of training. Actual service is quite another matter. The object of training is preparedness, while systems of service may run into the perversions of militarism. Prussia's plan was to make of every able-bodied man a soldier who could be mobilized at a moment's notice to carry out any secret militaristic purpose of the government. Universal training is protective, but universal service might be predatory in motive. Training can proceed in civil life, but service takes the citizen away from civil pursuits. It seems probable that both Houses of Congress will frame a measure for universal military training, but not for universal military service. The frequent use of the two terms as meaning the same thing is entirely misleading. Americans respond quickly to military training. What they have accomplished in volunteer armies and as a national guard is a proud historic record. Yet the record of military training has always been felt in national emergencies, and to provide for it is unquestionably a national duty and practically a necessity."—St. Louis Globe-Democrat.

Children Cry FOR FLETCHER'S CASTORIA

LEAGUE CONTRADICTS THE "FLYING PARSON"

The issue between Lieut. Maynard and the Anti-Saloon League is "joined" as the legal phrase goes. In response to a request Maynard gave the League a statement in which the "flying parson" was quoted as saying that if all the aviators in the recent transcontinental air race had been as sober as he was he wouldn't have won the race. The statement stirred up considerable protest in aviation circles. Maynard then asserted that the League had misconstrued his meaning. He said that he had meant only that many accidents in aviation are caused by the overuse of intoxicants and that he had not intended to cause reflections on any of his colleagues in the recent race. The

Camels are sold every-where in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel!

R. J. Reynolds Tobacco Co.
Winston-Salem, N. C.

CAMELS are the most refreshing, satisfying cigarette you ever smoked! Put all your cigarette desires in a bunch, then buy some Camels, give them every taste-test and know for your own satisfaction that in quality, flavor, smooth-body and in many other delightful ways Camels are in a class by themselves!

Camels are an expert blend of choice Turkish and choice Domestic tobaccos. You'll not only prefer this blend to either kind of tobacco smoked straight, but you'll appreciate the remarkable full-bodied-mildness and smooth, refreshing flavor it provides! Camels are a cigarette revelation!

Camels win you in so many new ways! They not only permit you to smoke liberally without tiring your taste but leave no unpleasant cigarette aftertaste or unpleasant cigarette odor!

Compare Camels with any cigarette in the world at any price! You'll prefer Camel quality to premiums, coupons or gifts!

Camel

CIGARETTES

League retorted that it refused to be made the goat in the issue. It declared that Maynard's original statement had been correctly quoted and that the organization had understood from the beginning that he referred to general conditions and not to the transcontinental air race "except where he had specifically so applied it."

Regulation of prison labor is in effect provided for in a bill introduced in the House by Representative John I. Nolan, of California, Republican, and chairman of the House Committee on Labor, who is also a labor man. Nolan would employ such labor for the production of supplies and authorize their purchase by the federal government. He would regulate the compensation and hours of such labor and fix its standards, and then prohibit the purchase of supplies manufactured by it under private contract. He would have the government equip the United States penitentiaries and the United States Army and disciplinary prisons and disciplinary barracks and the United States Naval prisons for the manufacture of supplies for the government. The bill provides that "the compensation to be paid for such supplies shall, so far as possible, be the prevailing price for like commodities in the vicinity of the institution furnishing them. Compensation and hours of labor for inmates of the institutions working upon such supplies shall be based upon the standard hours and wages prevailing in the vicinity in which the institution is located."

GERMAN MINES STILL MENACE

British and American naval authorities agree that until the Germans complete the sweeping of mine fields they laid in the North sea there will be considerable danger to shipping in waters adjacent to the British Isles. Until this part of the sea has been cleared there will be a good many mines drifting about. Two Irish fishing boats off Cork recently sighted what was believed to be a cask of wine or rum. Both craft made a race for it but it turned out that the winner was the loser. The "cask" was a floating mine and when the first party disturbed it it exploded and sank the boat.

POISON KILLS INMATES

Four inmates of the Kalamazoo, Michigan, infirmary died from eating johnnycake made with bug poison instead of baking powder. One of the victims caused the fatal blunder. He had taken the poison to his room. In replacing it he had put it where the baking powder was usually kept.

"Kicking about a few millinery bills? Why, I could have married Wombat, who is now a millionaire. But I didn't." "That's one big reason why he's a millionaire."—Cleveland Press.

STEAMBOAT TRAVEL SAFE.

The annual report of the steamboat inspection service states that for every passenger who lost his life in the year ending June 30, 1919, 1,600,000 were carried safely. Passengers during the year numbered over 323,317,000. Of these 202 lost their lives. The total number of lives lost was 543, of whom 341 were officers and crews of vessels. About 170 deaths were from causes beyond the control of the steamship service, it is stated.

FEAR JAPANESE INVASION.

Attention of authorities at the Hague has been directed to the thousands of Japanese laborers who are taking up homes in the Dutch East Indies. The Orientals are law-abiding and industrious but they are maintaining an organization under a directing head that is said to have control of all the Japanese in the islands. Officials are convinced that they are working under instructions from Tokyo.

Wife (at breakfast)—Could I have a little money for shopping today, dear?

Husband—Certainly. Would you rather have an old five or a new one?

Wife—A new one, of course.

Husband—Here's the one—and I'm four dollars to the good!—Stray Shots.

Daughter—Papa went off in great good humor this morning.

Mother—Mercy! That reminds me, I forgot to ask him for any money.—Boston Transcript.

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, . . . and the pains were very severe. A friend told me I had tried everything else, why not Cardui? . . . I did, and soon saw it was helping me. . . . After 12 bottles, I am strong and well."

TAKE

CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

FRIDAY..... JANUARY 9

Have you tried wood alcohol for
that tired dry feeling?

About 19 times out of 20 we still
write it that way. Force of habit
you might say.

Reports show that more than 1-
000 schools in Alabama, failed to
open during the past year, due to a
shortage of teachers, which of course
is traceable to poor pay.

William J. Brian may not be re-
garded as an ornament of pure gold
by the Democratic party at the pres-
ent time, but he does bob up as a
sort of crown of thorns for the "Un-
terrified" in the meetings staged now-
days.

Now, Mr. Democrat, we may have
something to kick back with. We
may be able to say some awful things
about that State of yours up at
Frankfort. I hope it "ain't" con-
trary, but does every thing Ed Mor-
row says do

There are more than a few Democ-
rats who would like very much to of-
fer themselves upon the Altar of their
party, as candidate for President.
But the reason that they do not
know whether they are now, or are
to be aspirants, is due to the fact
that they do not know whether Wood-
row "W" wishes to sacrifice him-
self by trying the untried trial, the
third attempt

It is a pleasant, experience and
quite helpful, to a happy editor of a
Country Weekly, when he is doing
his best to write an article for his
paper, to have the chief of the me-
chanical department wait upon him,
imparting the glad information that
a certain part of the Linotype Ma-
chine has broken and nothing more
can be done until the repairs are re-
placed from Chicago. Pleasant; yes
indeed.

At best, man is a vain animal, and
the Editor or Manager of a news-
paper is no exception to the rule. We
like to hear good things said about
us or receive pleasant approbation
by writing as seen in some of the
little notes we receive with sub-
scriptions for renewals and subscriptions.
These little tokens of approval,
whether real or feigned, denote a
generous and encouraging spirit in
their author, and while this paper has
never made it a practice to publish
these little "Forget-me-nots" yet they
are much treasured, but rather held
to be only for the eyes of those mak-
ing the paper, as there can be nothing
of interest attached for the average
reader.

That Cook County (Ill.), Sheriff,
who recently forced a lot of Chicago
convicts and criminals to witness an
official hanging as an object lesson,
for psychological effect, has come in
for a tolerably good round of criti-
cism from a portion of the press,
while a number of papers have took
the position that good may result
from the enforced witnessing of the
law's execution. Evidently it did
not do any harm to the man hanged,
and if it resulted in making punish-
ment should be made as odious to the
red-handed highwayman and murder-
er, it ought to have a good effect.
If it should show that the least bit
of good is done, if it inspires within
the minds of those criminally inclin-
ed, the habitual and vicious element,
any respect for law or dread of pun-
ishment through its force, then by all
means that character ought always
be made to witness every execution.
Criminals may be placed in two divi-
sions, in two classes: those who will-
fully violate the law against theft,
murder and the whole category of
other crimes, either for revenge,
pleasure or profit, and those who ac-

cidently or through some force of
circumstances over which the actor
seemingly has no momentary control
commits crime. For those of the
first class we believe that the punish-
ment should be made as odious to the
criminal as the crime was to the
community, and if there be any dif-
ference, it should be a bit more so.
What terror has the four walled pri-
son for the hardened criminal, the
black hearted fellow who murders
for a few paltry dollars, who for a
pittance would betray his best friend
and slash off the hand that bore him
succor, when that prison is strewn
with flowery beds of ease? His task
is made light, his clothing good and
comfortable, his living average and
bounteous; for amusement he is given
the "movies," good vaudeville, as
well as other shows and all of the
games. About the only real punish-
ment comes from the fact that he is
not at large to follow his nefarious
occupation and is forced to be in at
the weekly gatherings, presided over
by the "old Prison Chaplain." Bar-
ring the feature of confinement, the
average prison has ceased to be, in
the minds of the real criminal, a
place of punishment, and as a conse-
quence the picture of a prison sen-
tence has but little deterring influ-
ence with the criminal. Put a few
thistles and thorns in the beds of
the "crooked Crook and criminally
Criminal." If we can't instill the
fear of God within their hearts let's
make them shun prison sentences and
prison life.

MAKES TWELVE

RECOMMENDATIONS

Frankfort, Ky., Jan. 6.—Twelve dis-
tinct recommendations were made in
Governor Morrow's first message to
the Kentucky General Assembly,
briefly as follows:

Abolition of useless offices and
boards and commissions.
Repeal of the Board of Control
law, and divorce of State Institutions
from politics.

School legislation, including a Sur-
vey Commission.

Removal of the judiciary from
politics and election under nonparti-
san plan.

Ratification of Federal suffrage
amendment.

Enforcement of nation and State-
wide prohibition.

Repeal or amendment of the com-
pulsory primary law.

Dismissal of officers who surrender
prisoners to mobs.

Development of State's agricultural
and natural resources, including stig-
ulation and protection of the oil
and gas industries.

Creation of a more efficient De-
partment of labor.

Construction of a permanent sys-
tem of State highways.

Correction and revision of present
tax law and limitation of the arbitrar-
y power of the State Tax Commis-
sion.

Under the head of useless offices
he included: State Fire Marshal and
Deputies; Dog License Inspectors;
Chaufeur and Auto License Inspect-
ors; State Forester and Deputy; In-
surance Rating Board and entire au-
tomobile department, license collec-
tion to be placed in County Clerk's
hands.

DON'T YOU KNOW?

That every man in Ohio county, is
liable for a fine not exceeding \$100
and three months imprisonment in
the County Jail, for failure to pro-
cure a license and tag for his dog,
by the first day of January, 1920,
and you have no excuse as the licenses
and tags have been in the hands of
the County Clerk for at least three
months, so if you have not already
procured license and tag for your
dog, you had better get busy and get
one. To get a license and tag by
mail, give the following information
and send postage:

Your Post Office address.

Your Precinct.

Breed of dog.

Male or Female.

Color.

Markings.

Age of dog.

For a male dog send \$1.02 for the
first male, and \$2.00 for each subse-
quent male dog.

For a female dog send \$2.02 for the
first female and \$4.00 for each
subsequent female dog.

No one wants you to pay a fine,
but you must get your license and tag
at once, as you are already liable for
the penalty.

W. C. BLANKENSHIP, County
Clerk. 2812

S. A. BRATCHER, Sheriff.

HENRY CLAY A PROFESSOR

IN TRANSYLVANIA COLLEGE

It may be news to many Ken-
tuckians that Henry Clay, one of
our greatest statesmen, was at one
time a professor in Transylvania Col-
lege and that he was a curator, af-
ter leaving the college for the field
of politics, until his death in 1852.
Mr. Clay's professorship covered the
three years from 1804 to 1807.

SHERIFF'S SALE

For State, County, School, Dog and
State Road Tax for 1919.

Notice is hereby given that I, or
one of my deputies, will on Monday,
February 2nd., 1920., between the
hours of 10 o'clock a. m., and 2
o'clock p. m., at the Court House

PERSONAL NEWS AND SOCIAL EVENTS

Forest, son of J. P. Casebier, is on the sick list this week.

David, son of D. H. Barnes, is on the sick list this week.

Clarence ward, of No creek, left this morning for Akron, Ohio.

J. E. Mitchell, of Dundee, was in town, on business, Monday.

We pay cash every day for eggs and poultry. W. E. ELLIS & BRO.

R. B. Martin, of Cromwell, was in Hartford from Sunday until Tuesday.

Judge R. R. Wedding spent a couple of days in Owensboro, last week.

FOR SALE—Nice, bright straw, baled. See or call El CRABTREE.

Mr. W. C. Smith, of McHenry, was a visitor at this Office while in town, Monday.

Miss Gladys Bennett has accepted temporary employment as clerk in the Bank of Hartford.

Rev. E. Watt Smith will preach at Mt. Hermon, Sunday, Jan. 11th, at 11 a. m., and at 2:30 p. m.

Mr. Wayne Dever and family, of Sulphur Springs, have moved to town, to make their future home.

Judge W. H. Barnes went to Evansville, Ind., Wednesday, on legal business, returning Thursday.

E. Crabtree and family have moved into the residence property, recently vacated by V. C. Elgin.

Mr. Henry Leach was called to Rob Roy, Wednesday, on account of the serious illness of his mother.

Everett Tichenor and family, of Centertown, visited relatives and friends, in Hartford, this week.

FOR Oliver Chilled Plows, Vulcan Chilled Plows and repairs for both, see W. E. ELLIS & BRO.

Come in and get your share of meat quick, if you don't it will all be gone. A. J. WILLIAMS.

Mr. R. L. Dever has purchased the business house adjoining the Star Theater, occupied by C. A. Hudson, of Heavrin and Barrass.

I am paying more cash every day in the week for Poultry, Eggs and Cream than any buyer I know of. L. T. RILEY, Hartford, Ky.

Mrs. Will Brizendine, of Greenville, and Mrs. Z. Harrel, of Rockport, will return to their homes today after spending two or three days with Mr. and Mrs. T. H. Black and family.

Remember if you wish to save one third or more of that high-priced fuel and keep your rooms good and warm, you may do so by putting in one of those famous Air-tight Heaters, sold by ACTON BROS.

Mrs. Nanette Weckenden, of Cincinnati, Ohio, who had been here several weeks conducting classes in home hygiene and care of the sick, in connection with the Red Cross, returned to her home Monday.

Mrs. E. Watt Smith, who underwent an operation for tonsillitis, while on a visit to her mother, in Opelika, Ala., some time ago, is improving nicely and will be able to return to her home here at an early date.

Mr. L. P. Loney, a former citizen of this County and at one time County Superintendent of schools, who for more than a quarter of a century has been in the revenue service, located in Owensboro, has been transferred to Louisville, by the department.

Mr. L. G. Barrett, Editor of the Herald, will return today from Stanley, where he went Wednesday to visit, and to accompany Mrs. Barrett home, she having been visiting her parents, Mr. and Mrs. R. B. Culley, of that place for several days.

WOMAN'S LITERARY CLUB REORGANIZES

The Woman's Literary Club held its first meeting of the year, with Mrs. J. H. B. Carson, Saturday afternoon and reorganized by the election of officers for the ensuing year, as follows: Miss Florence Logan, President, Mrs. J. H. B. Carson Vice-President, Miss Lettice Marks Secretary and Mrs. J. R. Pirtle, Corresponding Secretary.

NEW BUSINESS FIRM.

Mr. Wayne Dever, of Sulphur Springs, has bought into the firm of R. L. Dever & Co., a grocery business conducted on Market Street, opposite Dr. L. B. Bean's place. The firm will henceforth be known as Dever Bros., and will remain at the old stand for the present.

NOTICE TO TEACHERS

I am prepared to pay the teachers in full on the presentation of the courses of study, record book and the annual report. The State Superintendent has instructed me to have them returned to this office. E. S. HOWARD, S. S. O. C.

FISCAL COURT IN SESSION THIS WEEK

The Ohio County Fiscal Court, with Justices Ed Shown, B. C. Rhoads, B. F. Rice, W. S. Dean, Geo. W. Rowe, Sam L. Stevens, W. C. Daugherty and Q. B. Brown, and County Judge Mack Cook present, met Tuesday the 6th., W. C. Blankenship doing the clerical work.

The Court passed upon quite a number of claims and among other business transacted, elected Dr. E. B. Pendleton County Physician for the present year. Employed Mr. M. L. McCracken County Farm Agent for the present year and withdrew or rescinded the former orders appropriating \$40,000 for the Federal Aid Highway from Bowling Green to Owensboro and \$25,000 for the Federal or State Aid road known as the Louisville to Paducah Highway. The former was scheduled to pass through the county via Hartford and the latter to pass through the Northern and Eastern end of the county, through Fordsville.

The Court also appointed J. L. Brown, of Rockport; J. H. Wood, of Ceralvo and County Clerk W. C. Blankenship to audit the books and accounts of Ohio County and report as to its financial condition as of December 31., 1919.

The Court adjourned yesterday to meet Feb., 16th, for the purpose of making settlement with the Sheriff for the County revenue etc., for the past year.

New York Sun—The president may pocket the treaty, but Europe will not pocket the United States.

STRAY STREAKS

(By Fluke McFluke.)

If I had a bottle of liquor! I say if I had a bottle of liquor and wanted to keep it, I'd put on that bottle a skull, some crossed bones and a label "WOOD ALCOHOL."

Since they have opened up a steamship line from the U. S. A., to Cuba, known and designated as the "WET LINE TO CUBA", I would not be at all surprised if John Henry quits journalism and takes to the sea, if not as a sailor, as a Southern Tourist. And he may perhaps change his residence and field of endeavor to some port in the little Republic to the south of us.

Not many of us could occupy the role of a Nero, who, it is said, fiddled while Rome burned, and while there is a real revival in town the most of us naturally stop some of our capering, whether it be worldly frivolity of this, that or the other, usually indulged in. It may be that it is a sort of ingrown desire come to the front, to do better, or it may be a sort of reverent respect for those we most certainly know to be the best in the community that promote us to lay off the light stuff for a season.

We hereby take back and retract all that we have heretofore said or may have thought against the hospitality or neighborly cleverness of Mont Johnson. He came into the office late Wednesday, when it was raining steadily and straight down, when no lady and but few gentlemen would dare venture out, and told me that he had just killed hogs, had a lot of back bones, spare ribs, sausage and so forth that he thought was going to spile, and deliberately and insistently invited me and my wife to come spend the night with him and his folks. Yes sir! I say Mont is a clever fellow and from this on I'm fer'm.

A CORRECTION—Squire Quint Brown says we did him an injustice in our last issue, in printing that report of the marriage ceremony he performed, as given us by the Simmons Weigh Boss. The Squire alleges that the book he was charged with carrying under his arm was not a copy of the Kentucky Statutes but a Sears-Roebuck catalogue, and the book he read from, said to have been Pope's essays on man was Peck's Bad Boy. The Squire is a right smart peevish and somewhat chagrined on account of the alleged misrepresentation, and we hereby, hereon and underneath disavow any connection with any sort of scheme to give our good friend Brown any publicity not deserved. We would further state that in case we have a lawsuit over the matter we are again ter swear Squire Brown off the stool and not let him try the case.

In order to ease the mind of our friend "I. D. Clair," Doc Moore, Ed Barrass and myself have held a meeting and decided that never more will the quartette be found angling at, or near where Grassy flows into the Rough river, but instead, have, as with one voice, one vote, as 'twere, decided to take our annual in the mountains. Inhaling the fragrance of tender wild flowers as they shoot their lovely buds from 'neath the jagged boulders upon the mountain's side, where we may obtain first touch and gather arms-full of bewitching blue-bells, and lilies of the highlands, where the whole panorama, including those within, is and are, made fascinating and fascinating, intoxicating and intoxicated, so to speak, by the ever-present, the mel-lowest and purest mountain dew. That's where we are going. We've been talked about long enough, in fact too long. Hence we are to cut the lowlands and hie it to new scenes, Mr. DeClair, where true sportsmanship may be held at its highest worth and where gossipers cease to gossip and busybodies and corn are forever stilled.—(To be continued.)

ESTRAYED

One red Steer Calf, about one year old. Liberal reward. F. D. TICHENOR, Horton, Ky.

Life is meant for work and not for ease; to labor in danger and in dread, to do a little good ere the night comes when no man can work.—Charles Kingsley.

MEXICANS SLAY TWO AMERICANS

Washington, Jan. 6—Earl Boyles and F. J. Roney, Americans, employed by the International Petroleum Company, have been murdered by Mexicans within one mile of Palo Blanco, near Port Lobos, according to private advices received here today from Tampico. One Mexican also was murdered.

Two Points to Remember About the New Edison

There are many sound reproducing devices on the market. There is but one which is associated with the name of a great inventor.

There are many sound reproducing devices about the merit of which strong assertions are made. There is but one which has ever offered to prove the truth of its claims.

The only instrument which bears the stamp of a great inventor's name; the only instrument which has been subjected to the searching test of actual comparison with the artist's living voice is

THE NEW EDISON

"The Greatest of All"

The makers of the New Edison assert that it RE-CREATES the artist's voice on instrument with such complete fidelity that no human ear can distinguish the artist from the RE-CREATION. Then they proceed to prove it by subjecting the instrument to the acid test of direct comparison with the living artist. More than 1500 of these tone tests have been conducted. Invariably the result proved the truth of this claim. Why has no other device been subjected to this test?

Fordsville Planing Mill Co.

JAKE WILSON, Manager

FORDSVILLE, KENTUCKY.

Beaver Dam, Ky., December, 1919

Friends and Customers:—

Beginning January 1, 1920, we are going to inaugurate a new system. This is made necessary in adjusting the estate of J. D. Williams. In inaugurating this system we have taken into consideration your interests as well as ours. The system is as follows: On and after January 1st we are going to give a 5 per cent discount on all cash purchases, except feed and seeds. Amounts of \$10.00 and under must be paid for in cash at the time of purchase, amounts of over \$10.00, which our customers desire us to carry can be arranged as heretofore by giving us negotiable notes of suitable amounts and time, bearing 6 per cent from date but if paid within sixty days from date no interest will be charged. By inaugurating this system we can give our capital a quicker turnover and can therefore sell on a smaller margin of profit, and this we propose to do, giving our customers the benefit of this saving. We carry a full line of Implements, Wagons, Buggies, Stoves, power Washing Machines, home Lighting Plants, Gas Engines, Feed Grinders, Cream Separators, Hardware, Saddles, single and double Harness, Collars, Nails, Roofing, Feed, Stock Powders, Oils and Implement Repairs. In fact, our line will enable the farmers to do all their shopping at our store, and we want to assure you that when you buy here you are getting honest goods at honest profits. We request you to come in and look over our line and judge for yourself as to price and quality, and we will take pleasure in showing you through, whether you buy or not. Please bear in mind the above terms and arrange to take advantage of this 5 per cent discount, which on a year's purchase will make a good saving. Just take your purchases for 1919 and deduct 5 per cent and you will no doubt be surprised to find what it will amount to. Then don't fail to take advantage of this saving for 1920.

We thank you sincerely for your patronage and assure you that our every endeavor will be to merit your confidence.

With sincere good wishes for health and prosperity during the New Year, we are

Very truly yours,

J. D. WILLIAMS & SONS,
Beaver Dam, Ky.

No details were given, but it was said that the American Consul at Tampico was in possession of all the facts. He has not yet reported to the State Department.

The territory in which the murder occurred was said to be under the control of Carranza forces.

Houston Texas, Jan. 6—Two American employees of the International Petroleum Company murdered by bandits near Port Lobos, Mexico, were from Texas. They were slain Monday, according to information received here today.

F. J. Roney was a Houston oil man and Earl Bowles formerly was with the Gulf Refining Company at Beaumont. The first report received here from a correspondent at Tampico confirmed in a report to the Texas company.

PRINCE ALBERT

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. That's because P. A. has the quality!

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and that clever, practical pound crystal glass humidior with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

hold the hen with the breast bone in the palm of the hand, with the flesh part of the legs held firmly on either side of the forefinger. The feeling of the breast bone in the palm of the hand will indicate the quality of the skin, while with the other hand the examiner can measure the distance between the pelvic bone and from the pelvic bone to the rear end of the breast bone. As he holds the bird he also can examine the plumage, comb, shanks, beak, ear lobes, and thus accumulate accurate information for his diagnosis of conformation and production ability.

It is essential that he consider all points in respect of their importance and not place too much dependence on one or more prominent characteristics.

Remove Tuberculous Animals.

When tuberculosis already exists in a drove of hogs all the affected animals, whether, hogs or cattle, should be removed from the premises says the United States Department of Agriculture. The hogs should be sent to market for slaughter at an abattoir under Federal inspection. The tuberculin test should be applied to all cattle on the place, and those reacting should be properly disposed of. The pens and stables should be thoroughly cleaned and disinfected before restocking.

Good Cows' Most Economical.

The first reason for having good milk cows on the farm comes from the fact that they provide the cheapest, best, and most wholesome food for the family. Their value is hard to estimate when we consider the amount saved on the bills. Their produce is a superior substitute for many foods necessarily purchased at high prices. In fact, there is no economic way of doing without plenty of good milk cows on the farm.

The average weight per measured bushel of the oat crop of 1919 is 31.1 pounds, or nearly 1 pound below the standard of 32 pounds. No year since 1908 has had a lower weight.

FARM DEPARTMENT.

Legumes Save Grain In Dairymen's Feeding Tests.

Legumes save grain. A two years' study undertaken in northwestern Indiana by the United States Dairy Division and Purdue University has shown that dairymen who grow alfalfa, clover, cowpeas, and other legumes as a substitute for a portion of the grain in the cows' ration, do not have to dig down so deep in their pockets when the feed bill comes in.

Not only was there a greater profit made when legumes were fed with the grain, but the fact that the legumes which were raised on the farm were charged at market prices gave the farmer an additional profit for raising them. In other words, the farmer raised the crops and sold them to himself at market prices, thereby making a profit on the crop.

During the first winter, on the 16 farms under observation, it was found that the feed cost of producing 100 pounds of milk was 11 cents higher in the herds which were fed legumes, but the owners of these herds paid 51 cents for grain per 100 pounds of milk, whereas their neighbors who fed practically no legumes expended 58 cents. The legume feeders obtained the profit from selling 69 cents worth of home-grown roughage to their cows for every 100 pounds of milk produced, while the nonlegume feeders sold only 51 cents worth.

During the second winter the increased cost of grain made it more profitable to feed legumes. The herds which were fed legumes produced 630 pounds more milk per cow, and the feed cost of producing 100 pounds of milk was 11 cents lower than for the herds which were fed no legumes. The legume feeders also paid out 10 cents less for grain per 100 pounds of milk than their neighbors, the cost of roughage being 67 cents in each case. In 8 of the 13 legume-fed herds, the feed cost of 100 pounds of milk amounted to \$1.27, as compared with \$1.35 for grain-fed herds. The dairymen who did not feed legumes fed out 67 cents for grain per 100 pounds of milk, compared with 54 cents for the legume-fed herds.

A similar study on dairy farms in Vermont showed practically the same results. The dairymen who raised an abundance of alfalfa and similar crops paid out 6 cents less for grain, while roughage cost only 2 cents more. In the second winter the feed cost of producing 100 pounds of milk was 13 cents lower with the herds receiving legumes.

The legume feeders also scored another hit in the saving of grain. They paid only 84 cents for grain for each 100 pounds of milk, as compared with \$1.01 for dairymen who fed no legumes. Assuming that a dairyman

was producing 500 pounds of milk a day, this saving would amount to 85 cents daily, and \$25.50 a month, or \$155.12 during the winter.

Here's A Pumpkin Pie That Needs No Sugar.

Pumpkins and squash are in season. This pumpkin pie is up to date at this time of sugar scarcity because it uses no sugar.

Pumpkin Pie.
 2 cups squash or pumpkin (stewed and strained).
 1/2 cup molasses.
 1 teaspoon cinnamon.
 1 teaspoon ginger.
 1/2 teaspoon salt.
 2 eggs.
 2 cups rich milk.
 Mix the pumpkin, molasses, cinnamon, ginger and salt. Beat the eggs slightly and add them and the milk to the mixture. Bake the mixture in one crust until it is firm.

Keep Dry Mash Before Fowls At All Times.

In addition to grain and green feeds, dry mash should be kept before growing chicks at all times after they are 3 or 4 weeks old. If is best to feed it in a hopper inside the building or where it will not be exposed to rain or wet. If a large number of chicks are raised, the mash may be fed in an outdoor hopper. The following mixture makes a good dry mash: Two pounds cornmeal, 2 lbs. middlings, 1 pound oatmeal, 2 pounds wheat bran, 1 pound beef scrap, and one-fourth pound of charcoal. When a larger quantity is desired it should be mixed in the same proportion.

Also grit and oyster shell should be provided, so that the chicks may help themselves whenever they wish.

If chickens must be confined on account of bad weather, provide a good straw litter in which their grain feed may be scattered. This will give them exercise and keep them interested and healthy. When chickens that have been accustomed to free range are closely confined, this frequently checks their development for the time being unless they are made contented in their new quarters.

How To Candle Eggs.

It is necessary to rotate an egg before the candle if one is to obtain an accurate knowledge of its condition. By tilting it at various angles, the location and size of the air space can be seen, and very often the position of the yolk. But the quality of the egg is very largely determined by the ease with which the yolk moves and the direction of its motion. The operator, therefore—

1. Grasps the pointed end of the egg with the tips of the fingers.
2. Holding the blunt end uppermost, places the egg closely against

the opening, or spout, of the candle.

3. Gives the egg a quick turn to the right or left, watching the movement of the yolk.

If the egg is perfectly fresh it may be difficult to find the yolk at first glance, but as the egg is turned a glimpse of it will be obtained.—U. S. Department of Agriculture.

When fowls do not have access to natural green feed, sprouted oats, cabbage, mangels, cut clover, etc., should be fed.

Texas Against Scrub Sire.

Texas has joined the "Better Sires—Better Stock" campaign of the United States Department of Agriculture, and some Texans are already whetting their pencils in preparation for writing the obituaries of the countless mongrel males which are destined to walk the gang plank. The Texas plan of scrub eradication is to standardize the work around the county agent, allowing each county agent to disseminate information and formulate plans for the abolition of the scrubs largely as he sees fit in accord with the conditions operative in his community. The Texas activities against misfit breeding animals are typical of those which are extending throughout the South.

Waste of stale bread may be avoided by toasting it, by freshening it—slightly moistening the loaf and placing for a few minutes in a hot oven—or by drying it and using the crumbs in place of flour or starch in recipes.

One of the most important duties of the housewife and the chief object of her care is the proper handling of the food supplies for the protection of the health and the furtherance of the efficiency of her family.

Earmarks of Worker and Slacker Hens.

The worker hen—the fowl that produces persistently and economically—usually carries ragged worn plumage; is a late molter; has a red, large, sleek, plump comb and white, thin, flat shanks. The beak and ear lobes are white, while the pelvic bones are thin, pliable, and wide apart, and the skin is thin, loose, and shows no indication of hard fat. The space between the pelvic bone and the end of the breast bone is wide. The breast bone is soft, pliable, and prominent.

Slacker hens are characterized by neat, clean plumage; early molting; a pale, small shriveled comb, yellow, round and full shanks; yellow beak; creamy ear lobes; heavy, rigid, and close-together pelvic bones. The spread between the pelvic bone and the end of the breast bone is narrow, while the small bones on either side of the breast bone are hard and well covered with flesh. The skin is thick and underlaid with fat.

In making physical examination of the fowls for production efficiency,

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: H. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists.

The incorporation of cooperative associations in the District of Columbia, with the object of enabling the government employees to combat the high cost of living is provided in a bill introduced in the Senate by Senator Arthur Capper, of Kansas. The associations are empowered to "carry on any lawful mechanical, manufacturing or trading business, as well as conduct any farming, horticultural, fishing or otherwise productive enterprise."

EGG-A-DAY HEN TONIC

Have you gotten your package of Egg-A-Day Hen Tonic at the store nearest your home?

Be sure your hens have a warm nest of straw, good food mixed with Egg-A-Day Hen Tonic and clean water. Give your hens a chance and with eggs at seventy-five cents a dozen they will pay big dividends.

The Paxton Toilet Company, Boston, Mass.

Electric
Bitters
 Succeed when everything else fails. In nervous prostration and female weakness they are the supreme remedy, as thousands have testified.
FOR KIDNEY, LIVER AND STOMACH TROUBLE
 It is the best medicine ever sold over a druggist's counter.

"Gee-Whiz! How it Hurts!" —The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "keep the kidneys in good order."

"Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

Mothers
use
Frey's
Vermifuge
For the Children
 A Safe, Old-fashioned
Remedy for Worms

Seventy-five years' continuous use in the best testimonials FREY'S VERMIFUGE can offer you. Keep a bottle always on hand. It will help keep the little ones happy and healthy. See a bottle at your drug-gist's or general store, or if your dealer can't supply you send his name and live in stamper and we'll send you a bottle promptly.

MANY CHANGES MAY BE SEEN IN LONDON

Upper Class As Well As Lower Forced To "Skimp"

London, Jan. 3.—London will soon be somewhat unfamiliar to those who have been absent for say, more than twenty years. Not only its streets have changed—gone are the hansom cabs and "growlers", gone is the old-fashioned knife-board bus, with its red-faced, white hatted driver, and the conductor behind hanging on by a short leather strap, while he stood on a small round shelf and pushed his head through the window frame of the door on a wet day and asked if "any gent oblige a lady" by giving up his seat and ascending to the top which was apronless.

Gone, too, are the shoeblacks, "City Reds" and "Shaftesbury Blues," and the crossing sweepers are fast disappearing.

Aristocracy Retrenching.

But it is in the habits of the "Upper Ten" that even more startling change is to be found. Dukes and earls, who a generation since scorned economy, are now busy retrenching. They learned to carry parcels during the war. Now they are learning to do without and making what they have to.

Suits for workers this winter are to cost \$100, say the tailors. What Saville Row will charge can only be guessed. Even an estimate would be too scaring. Many aristocratic women, like their husbands, are cutting down expenses.

"Never have women of high social standing bought so few clothes or had so many dresses and costumes remodeled to save buying new ones," a Bond street modiste told Universal Service. In former times smart women would not contemplate wearing a frock at more than two functions a season. Now, however, they are not ashamed to wear the same dress over and over again, provided that it is becoming and well-fitting."

Manicure Own Nails

Prominent women in the social world are also learning to do many things for themselves they would never have dreamed of doing even five years since and are not relying on their maids for personal services. The scarcity of servants has taught them to arrange their own hair and manicure their own nails.

"You would be surprised at the number of wealthy women who come here for hairdressing lessons," a prominent hairdresser told Universal. "They also learn to massage themselves, and do not rely on professional services as they used to do."

So whatever they used to do in your time you will need to recollect even that grand old institution, Britain's "Upper Ten" has moved as well as the "Lower Five."

GIANT POSTAL PLANES.

The largest mail-carrying plane, the Glen L. Martin, made a flight recently from New York to Washington carrying 1100 pounds of mail. It had previously flown from Cleve-

land to New York in three and one-half hours. The plane has a spread of over 70 feet, is 45 feet long and its height is 14 feet. Four planes whose capacity will be 3,000 pounds for long flights and 6,000 pounds for short ones are now in process of construction. According to specifications they will have three engines, will be over 100 feet in wing-spread and will have a speed of 110 miles an hour. The crew will number 4 and the total weight of the plane loaded will be 10 tons.

LIVIA ROUTE 2.

Mrs. Martha Northen and daughter, Miss Leona, have returned home after spending the holidays with relatives at East View.

Those on the sick-list now are: Mrs. George Hoover, Mrs. Katie Rhegans and Miss Elizabeth French.

Mr. James Bartlett, Jr., and family have moved into the new house, recently built on Mr. Myrt Kirk's place. Mr. Will Neal has purchased the property vacated by Mr. Bartlett. Mr. and Mrs. Gilbert Jolley spent from Wednesday until Sunday with their parents, Mr. and Mrs. John Raymond, of Adaburg.

Mrs. Arnold Hines and baby have returned home after spending the past week with relatives near Adaburg. Mr. Claud Mosley left Monday for Henderson.

Representative Horace M. Towne, of Iowa has introduced a bill for the public protection of maternity and infancy, providing a method of co-operation in such matters between the Government of the United States and the several States. \$480,000 is appropriated. A Federal Board of Maternal and Infant Hygiene is created, to consist of the Secretary of Labor, the chief of the Children's Bureau, the surgeon general of the United States Public Health Service, and the United States Commissioner of Education. Towne would promote instruction in the hygiene of maternity and infancy through public health nurses, consultation centers, and the provision of nursing care for mothers and infants in remote areas.

MOTHER IMPULSE FORCES WOMAN TO STEAL CHILD

Cleveland, O., Jan. 4.—An impulse to mother a child led Mrs. Inez Cooper, Boston, to take Paulina Polovich, 6 years old, to Akron, the woman told detectives of that city today when they arrested her on charges filed by Leo Polovich, the child's father. The girl disappeared from her father's home here December 20. The woman was returned to Cleveland tonight.

"The Hon. Josephus Daniels, so long as the President permits, asserts his power as the sole custodian of honorary awards, the judge of merit from whose decision there can be no appeal."

"The particularly unpleasant feature of the issue thus sharply raised is found in the circumstance, as Admiral Sims faintly but sufficiently indicates, that the ultimate dispenser of Naval Fame's choicest laurels while passing by so many of the meritorious and duly certified, has by no means overlooked his own family."—New York Sun.

THE SILENCE OF THE PULPIT.

We used to know well the Hon. James M. Brown, of Toledo, Ohio. It was when he was president of the American Humane Association that we heard him deliver the address containing these words:

It is but a comparatively short time since this Association sent an official communication to the heads of ecclesiastical bodies in this country, calling their attention to the terrible cruelty almost universally inflicted upon the lower orders of life, and the consequent demoralizing influence upon men, and asking if the same might not be made the subject of an earnest appeal by them to the ministry under them, to at least once a year preach a sermon in behalf of these dumb creatures.

Only a small fraction of these received any reply.

Before the judicial intelligence of the universe, where men must make account for deeds done in the body, in the name of the millions of suffering subjects of man's dominion, I impeach the recreant priests and ministers of the earth for gross neglect of duty, in that they have failed to cry aloud, in that they have failed to life up their voices like a trumpet, in that they have failed to teach men their transgressions committed in the exercise of their dominion "over the fish of the sea, the fowl of the air, the cattle and everything that creepeth upon the face of the earth."

The Best Cough Medicine.

When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it and when in need of such a medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist of Cubrun, Ky., says, "I have used Chamberlain's Cough Remedy in my family for the past seven years, and have found it to be the best cough medicine I have ever known."

RADICALS SEIZED ARE EX-GERMAN SOLDIERS

Vincennes, Ind., Jan. 4.—Eleven alleged radicals, mostly men who had served in the German army, were arrested in a raid early today by Department of Justice agents. Several wives attempted to resist the arrest of their husbands.

An abundance of radical literature, most of which was printed in German, was found. Practically all confessed to being members of a communist labor organization, and membership cards and the charter of the Vincennes organization were found.

That they belonged to the German army is shown by registration records of alien enemies taken during the war.

Joseph Burkhart, secretary, is the only American-born.

1,038 MILES TO COURT.

Weaverville, Cal., Jan.—Trinity County has discovered that it has citizens who must travel 1,038 miles from their homes to reach the county seat and return home again, and that it costs the county \$75 to have one citizen serve a single day on the grand jury.

Thomas P. Neilson, of Mina, lives only 126 miles from Weaverville, but

THE NORTHERN STATES HAVE ADOPTED THE 56" AUTO-TRACK WAGON

Get On the Right Track by Following the Auto Track

TODAY there are over 6,000,000 automobiles and motor trucks in use in the United States. The users of these machines are "on the right track"—and they now control the "track" of the road in every part of the country. This locality is no exception. Just sit down for an hour or so alongside any road leading to town and count the automobiles going by. Count also the farm wagons. You'll be surprised at how many more automobiles you'll see than wagons.

And you'll discover that the wagons that pull easiest and ride easiest are the ones that follow the auto track, traveling in the ruts moulded by the automobile. The hard-pulling, jolting, wide-track wagons (60 inches) bump along with one side in the rut and the other riding the ridge, causing the wagon tongue to whip forth and back and putting heavy strain on the gears, axles and wheels.

All Weber Wagons are standard auto-track—and we sell them. Which do you prefer—an auto-track wagon or an odd-track "out-of-track" wagon?

Come in and see us when you are in town even though you may not be in the market for a wagon just now, because we also handle a full line of farm machines, repairs, etc. You know where we are located.

Sold By LUTHER CHINN,
Beaver Dam, Ky.

THE SOUTHERN STATES HAVE ADOPTED THE 56" AUTO-TRACK WAGON

owing to road conditions, when summoned for grand jury service he had to travel by rail to Ukiah, San Francisco, Sacramento and Redding, and then 55 miles by auto-stage to the county seat, and return home by the same route. His expense account of \$75 was allowed.

KOLCHAK THREATENS TO GIVE SIBERIA TO JAPAN

London Jan. 4.—A Moscow dispatch quotes a Dorpat report as saying that Admiral Kolchak, head of the Omsk Government, has notified the United States Government that he will cede part of Siberia to Japan unless Allies send further assistance to the White armies to save Russia.

SUN SPURNS YUMA FOR FIRST DAY IN 45 YEARS

Yuma, Ariz., Jan. 4.—The sun failed to shine on Yuma yesterday for the first time in forty-five years, according to persons who have lived here that long. Rain fell throughout the day.

A hotel which for twenty-five years has displayed a sign offering free board every time the sun failed to show itself prepared last night to do a rushing business.

It failed to materialize.

PERFORATIONS COUNT UP.

The waste in perforating 125,000 sheets of stamps in the bureau of engraving and printing is gathered up in barrels and marketed. Four barrels of the little discs are gathered daily, or a total of 1,365,000,000. Placed in a line with edges touching these would extend a distance over 850 miles.

"T. N. T. FOR BLASTING.

The relative strength of T. N. T. and dynamite were practically tested recently in blasting out two concrete piers. For each pound of the former 14.9 cubic feet of the concrete was removed; for each pound of the latter eight-tenths of a cubic foot less was removed. T. N. T. is safer than dynamite because it is less sensitive but a greater quantity of carbon monoxide is produced when it is set off and more careful ventilation therefore is necessary in using it.

TO COLLECT LUXURIES TAX.

Groceries, drug and variety stores in many places have not been affixing stamps on articles that the law requires them to stamp when sold. The bureau of internal revenue, it is announced, will make a special drive to collect unpaid taxes on drugs, patent medicines and toilet articles.

No child hereafter born in the United States of foreign parentage will be eligible to citizenship unless both parents are eligible to become citizens, if a joint resolution introduced in the House by Representative Raker, of California, is enacted into law. He takes the view that this would have the effect of making the parents more anxious to become permanently identified with the country, and therefore helping in the work of Americanizing America.

Sports Doom Foot Binding in China

Freedom of Action Imperative and Bound Feet Disappearing.

Basket ball, tennis and jumping the rope are curing China of the age-old cruel custom of binding the feet of her daughters. These American sports are proving just as efficacious in doing away with that evil as is the law of the Chinese republic against the practice of foot binding. In many instances it is even more efficacious for there can be no basket ball, tennis or rope jumping for the girl with bound feet and since the "new woman" of China, even in her girlhood, insists upon participating in American sports the bound foot must go.

All kinds of American sports are popular in young China and in other Oriental countries, according to John W. Wood, Foreign Secretary to the Board of Missions of the Episcopal

American Playground One of Our Most Valued Exports to the Orient, Says this Observer

JOHN W. WOOD

Church, who recently returned from a nine-months' tour of the Far East in connection with the Episcopal National-Wide Campaign. In fact, Mr. Wood ranks the American playground as one of our most important "exports" to the Orient. He hopes it will be "exported" in still larger quantities through the National-Wide Campaign as that campaign seeks to raise more than \$42,000,000 to strengthen all phases of Episcopal activities at home and abroad.

"Quietly but systematically for the past twenty years," he said "we have been exporting to the Orient that dis-

tinctly American institution, the playground; and now the Chinese Empire is dotted with these open air places. One can't easily estimate the extent of the benefits future generations in the Orient will derive from this infusion of the spirit of free, open air America into the youth of China.

"In the one detail, for instance, of binding the feet of Chinese girls, our playgrounds are working a revolution. There can be no basket ball or tennis or rope jumping for a girl with bound feet, and since the Chinese girl insists upon taking part in sports, the binding of the feet is bound to go.

HOW TO REACH RHEUMATISM THROUGH THE BLOOD

Powerful Iron in liquid form makes rich, red blood and drives uric acid out of the system forever.

It is now generally known that Rheumatism is caused by uric acid which is formed in the blood and deposited through thousands of little capillaries and nerves in different parts of the body.

If you have healthy, rich, red, strong blood, you will never have Rheumatism. Healthy blood eliminates uric acid, and does not allow it to stay in the body to cripple and pain. The successful and reliable method of getting this great essential into the blood is through the use of a natural form of soluble iron known as Acid Iron Mineral.

The nerves are immediately strengthened, bodily vigor is restored and the general improvement of all ailing conditions prove that the blood is getting the iron it must have to maintain perfect health. With the blood thus made healthy, uric acid is eliminated and

driven out of the system, even in cases where the trouble is of long standing, and has failed to respond to other methods of treatment.

This new way of driving Rheumatism out of the system through the blood made pure and strong with this natural soluble iron—Acid Iron Mineral—is being adopted by thousands as fast as the story can be told. There is no need to suffer longer—you can be on the road to recovery today. And in driving Rheumatism from your system, this remarkable liquid iron blood maker will give you stronger nerves, more power in every way.

If you suffer from Rheumatism in any form, no matter of how long standing, you owe it to yourself to start using Acid Iron Mineral at once. Do not miss this opportunity. Call at your druggist today. Why suffer any longer?

OUR LOOM-END SALE!

Begins Saturday, January 17th

CLOSES SATURDAY, JANUARY 31.

This sale is going to be one of the biggest money saving sales we have had. Our merchandise at to-day's regular prices is 25 to 33 1-3 per cent below to-day's market price. You can buy merchandise at our regular prices for future use and make handsome returns on your investment.

Merchandise is high and still on the upward trend at a rapid rate. You may be wondering when merchandise will begin to go down. Not until the supply is greater than the demand.

For eight years after our Civil War prices were much higher than they are now. Compare our Civil War to the great World War and make your calculations as to how long it will take for a complete adjustment of the world's affairs, when it took us eight years after our little family row to begin to get normal. Years will come and go and prices may still soar to higher levels. Everybody must produce their full capacity to create a surplus, and practically nobody is doing it. Supply and demand rules the prices. Short supply means higher prices. The supply grows shorter all the time and the demand is growing all the time. As lower prices in the near future are an impossibility, we want to call your attention to our big collection of

Loom End Calicoes, Percals, Cheviots, Ginghams, Suitings, Indian Heads, Romper Cloth, Nainsook, Long Cloth, Plaid Dress Goods, Silks, White Goods, India Linons, Organdies, Voils,

That have been bought especially for this sale and will be sold at less than the cost to make on today's market. BESIDES OUR LOOM ENDS, every short length, odds and ends and broken lots, from every department will be out on tables with red tags on them, priced away below cost of production. Buy what you need for a year or more, either off the Loom End counter or out of stock, you make money both ways.

Remember the date, be on hand the first day and you may be able to get everything you need.

CLOTHING DEPARTMENT
